Scalable, Affordable Cybersecurity Maturity Model Certification (CMMC) Compliance

Secure, simplified, and designed to grow with you

We've Been There

As a women-owned, 8(a) small business, we understand the challenges of achieving compliance on a tight budget—because we've lived it.

Compliance Without the Enterprise Price Tag

CMMC Level 2 solutions built to fit your budget; without the overhead of large consulting firms.

Secure Microsoft Cloud for DoD Contractors

Powered by Microsoft 365 GCC High; fully aligned with DFARS 7012, NIST 800-171, and ITAR.

Security That Scales With You

Enclave-based architectures, AVD, and Defender suite adapt as your compliance needs evolve.

Automated and Audit-Ready by Default

Streamlined onboarding, offboarding, and policy enforcement—reducing manual effort, increasing oversight.

jma resources

From Assessment to Audit-Ready

A complete path to CMMC Level 2 compliance

Plan & Architect

Assess readiness and architect a compliance-first environment using Microsoft 365 GCC High and enclave strategies.

Migrate & Secure

Execute secure migrations and integrate Microsoft security tools- Defender, Sentinel, Entra ID- to enforce CMMC-aligned controls.

Automate & Operate

Implement automation for provisioning, offboarding, access control, and compliance reporting to reduce manual overhead.

Maintain & Evolve

Ongoing support, documentation updates, and security posture reviews to ensure continued audit readiness.
